STARTALK FINAL REPORTS

STARTALK programs are required to complete a final report. These reports are reviewed carefully by STARTALK, and the information provided is used to inform future decisions about the program. The reports are also shared with the funders of the STARTALK program. Combination programs must complete a final report for both the teacher and student programs. The final report must be completed in SOPHIE, the online program information system. All final reports must be submitted by September 15, 2019.

This document serves as a preview of the questions asked as a part of the final report on SOPHIE.

Enrollment and Course Credit

<table>
<thead>
<tr>
<th>Language(s)</th>
<th>Participant grade level in the fall</th>
<th>Target enrollment</th>
<th>Applications received</th>
<th>Starting enrollment</th>
<th>Final enrollment</th>
</tr>
</thead>
</table>

Note: Some fields will automatically populate with data from your program proposal for each language in your program.

Enrollment on day of site visit:
Number of participants receiving high school credit: *(student programs only)*
Number of participants receiving undergraduate credit:
Number of participants receiving graduate credit: *(teacher programs only)*

The following four questions apply to student programs only.

1. In 2019, what recruiting techniques or methods did you use in order to recruit a diverse group of participants?
   - Targeted promotional materials to areas with diverse populations
   - Partnered with other organizations such as local community groups
   - Attempted to ensure diversity through the acceptance process
• Translated applications or promotional materials into other languages
• Other (please specify)

2. In 2019, were you able to recruit students from various socioeconomic groups?
   • Yes
   • No

3. In 2019, were you able to recruit students from various ethnic groups?
   • Yes
   • No

4. In 2019, were any of your students identified as needing special education support (due to a learning disability, for example)?
   • Yes
   • No

Program Overview

5. Provide a brief description of the program. *(Note: an editable draft of this description will autopopulate with information from your program proposal)*

6. Your site report indicated that the program didn’t fully align with the program proposal. Please describe and explain the reasons for any changes that were made. *(This is a conditional question that will only show up if your program’s site visit report notes that the observed program did not match the written description of the program)*

Reflection Questions

7. What evidence do you have that the program successfully met the learning goals of individual participants?

8. What STARTALK resources did you use as part of your program? How did those resources support the goals of your program? What resources do you need that STARTALK does not provide?

9. How did the online component contribute to the success of your program? *(Note: this is a conditional question that will only show up if your site visit report notes that the program has more than 1 contact hour listed as being online.)*

10. What could STARTALK do to help you better design and implement a successful program?

11. What else have you learned from your STARTALK experience?

12. Please enter the contact information for your instructors (name and email address).
